

Localised rainfall sees some reservoir levels boosted

Rainfall recorded at South Gippsland Water's storages from the 27th June 2015 to 3rd July 2015 was Lance Creek 24mm, Ruby Creek 8mm, Coalition Creek 8mm, Deep Creek 18mm, Little Bass 8mm and Battery Creek 18mm.

Philippe du Plessis, Managing Director, South Gippsland Water said, "Decent rainfall in some catchments saw some storages rise, whilst in comparison, low rainfall in others areas saw storages decline. The majority of storages are yet to reach 100% capacity this winter".
