

## Construction Update & Timing

Since construction began in July 2014 the three towns have been a hive of activity;

- ✓ Construction of the reticulation sewer pipe network in each town is complete.
- ✓ Connections began in Nyora in November 2014, however these will pause until the transfer pipeline & pumps linking Nyora to the Lang Lang treatment plant are complete. Nyora connections are planned to recommence in April 2015 and continue whilst ground conditions allow.
- ✓ The transfer pipelines connecting Poowong and Loch to Nyora are complete.
- ✓ Work on pump stations and valves to complete the system will continue in 2015. Targeting mid year for the whole system to be operational. However, given connection to sewer requires significant on-site works and earthmoving, connections for Poowong and Loch are unlikely to begin until dry weather and improved ground conditions in October/ November 2015.
- ✓ On-site consultations for Poowong and Loch are expected to commence from August 2015.
- ✓ Home owners in Nyora are reminded to book in their consultation now (if not already completed), before the crews move to Poowong & Loch. Call the Connections Team on **1800 728 256** to book.

## Helping You Save Water This Summer - FREE Water Wise Kits Delivered

With hot summer weather upon us and reservoir levels dropping, now is the time to be water wise. South Gippsland Water can help! Call **1300 851 636** for a **FREE** water saving kit including hose trigger nozzle, tap connector and water saving showerhead delivered to your door.

## Cash Back

South Gippsland Water is helping customers in Poowong, Loch & Nyora, with Cash Back for purchasing water efficient products such as tanks and toilets. Customers can take up an offer, regardless of connection to sewer.

**Hurry, these offers end 30<sup>th</sup> June 2015!**

The Cash Back program includes water efficient products & appliances, such as tanks, toilets, showerheads and taps. The more water efficient customers in these towns are, the less wastewater that is generated for South Gippsland Water to treat.

**~ The Washing Machine Cash Back offer has been extended to 30 June 2015! ~**
