

BE A REFILLER

WE NEED YOUR HELP

Join us and be a Refiller

Recent fires across Victoria have resulted in many local communities, who don't have reticulated water, experiencing smoke tainted water.

As a result, people who don't usually purchase bottled water are turning to this option to have access to safe clean drinking water if they don't have access to tap water.

South Gippsland Water, in association with Choose Tap have nominated our main sites as a location to refill containers with reticulated water and hope that you will join us.

The program is for drinking bottles and domestic sized containers of up to 10L, larger out-door sites will be promoted to fill containers up to 20 litres.

Tap water comes at a cost of \$1.84 for 1,000 litres. The cost to the business would be less than 2 cents for every time you help out with 10 litres. Being a Refiller comes with a range of benefits to organisations across the region:

- Builds a reputation for sustainability
- Promotes your business as being community minded
- Benefits from local advertising and social media campaigns
- Supported by the Choose Tap coalition, and you will be a part of this national movement

More information?

The attached flyer provides further information on the program. Join us by completing the registration form and contact Ros or Amy in the Communications Team on **1300 851 636**

or visit sgwater.com.au/Choosetap

With thanks,
the Team at South Gippsland Water
