Warm dry weather continues

There was no rainfall recorded at South Gippsland Water's storages from the 3rd to the 9th of October 2015

Philippe du Plessis, Managing Director, South Gippsland Water said, "The region has experienced warm, dry conditions over the past week. This has impacted storages with some systems dipping from 100% capacity. This is earlier than in previous years, however, late spring rains may see systems top-up".
