

## Storage and Rainfall Update

Rainfall was recorded at South Gippsland Water's storages from **3<sup>rd</sup> – 9<sup>th</sup> September 2016**. Lance Creek 2mm, Ruby Creek 6mm, Coalition Creek 6mm, Deep Creek 3mm, Little Bass 4mm and Battery Creek 3mm.

Last week's warm spring weather yielded minimal rainfall across the region, however all reservoirs, replenished by recent winter rainfall, have maintained water levels at or above 98% capacity.

South Gippsland Water encourages customers to always use water wisely. Permanent Water Saving Rules continue to be in place across all Victorian systems and townships.

Information and graphs depicting water storage levels can be found in the Services section of South Gippsland Water's website [www.sgwater.com.au](http://www.sgwater.com.au).
